ADRIANA CORBEN
MD

Dr. **Adriana Corben** is the Vice Chair in the Department of Pathology, Director of Surgical Pathology and the Chief Breast Pathologist Clinical Services at Maimonides Medical Center.

M. ISABEL FIEL
MD

Dr. **Maria Isabel Fiel** is Professor of Pathology at the Icahn School of Medicine at Mount Sinai in New York City. She is board-certified by the American Board of Pathology in Anatomic and Clinical Pathology, and in Cytopathology. She is a Fellow of the American Association for the Study of Liver diseases. She completed her residency at Mount Sinai, followed by two fellowships, Cytology and Liver and Transplant Pathology. She has published more than 220 peer-reviewed scientific articles. Her main interests are on the pathology of liver transplantation, noncirrhotic portal hypertension, drug-induced liver injury and primary liver cancer. She is past president of the Hans Popper Hepatopathology Society and the Laennec Liver Pathology Society and recently was president and board trustee chair of the New York Pathological Society. Dr. Fiel is active in teaching liver pathology and has given talks on various hepatopathology topics in regional, national and international fora.

PEI HUI
MD, PhD

Dr. **Pei Hui** is Professor in the Department of Pathology and Department of Obstetrics, Gynecology and Reproductive Sciences at Yale School of Medicine. He received combined anatomic and clinical pathology residency training at Yale-New Haven Hospital in 2000, followed by Oncological Pathology Fellowship training at Memorial Sloan Kettering Cancer Center. He joined the pathology faculty at Yale in 2001 and became full professor in 2013. Dr. Hui is a board-certified surgical pathologist with clinical specialty areas including gynecologic pathology and molecular diagnostics. Currently, he is Director of Gynecologic Pathology Service and Clinical director of Molecular Diagnostics Laboratory at Yale.

Dr. Hui oversees a dynamic, high volume gynecologic pathology service at Yale. One of his long-term academic goals is to build an outstanding gynecological pathology program with emphasis on diagnostic tissue evaluation, oncological biomarker identification and clinical applications, and understanding the pathogenesis of various gynecological cancers. Dr. Hui has particular clinical expertise in the diagnostic workup of gestational trophoblastic disease. He serves on the editorial boards of International Journal of Gynecological Pathology, Modern Pathology, Human Pathology and Journal of Clinical Pathology. He has authored over 240 publications including four pathology textbooks: Cytology and Surgical Pathology of Gynecologic Neoplasms, Gestational Trophoblastic Disease: Diagnostic and Molecular Genetic Pathology, Atlas of Intraoperative Frozen Section Diagnosis in Gynecologic Pathology, and Practical Gynecologic Pathology. Dr. Hui was a member of the consensus and editorial working group for the 4th edition of WHO Blue Book of tumor classifications of female reproductive organs (2014). He is an expert member of the editorial board for the 5th edition of WHO Blue Book of GYN tumor classifications (2020). Dr. Hui serves on the Board of Directors of the International Society of Gynecological Pathologists (ISGyP) and is the treasurer of the society.

RICARDO LLOYD
MD, PhD

Dr. Ricardo Lloyd is Emeritus Professor of Pathology and Laboratory Medicine at the University of Wisconsin School of Medicine and Public Health. He did residency training in Pathology at the University of Wisconsin-Madison and a fellowship in oncologic pathology at Memorial Sloan Kettering Cancer Center in New York. He joined the faculty at the University of Michigan and rose through the ranks to become Professor of Pathology and Warthin-Weller Professor of Pathology. He worked at the Mayo Clinic as a Consultant and Professor of Pathology. In 2010 he returned to the University of Wisconsin-Madison. He has had a very productive academic career, having published more than 540 original manuscripts, 51 book chapters and authored/edited 9 books.

NICOLE PANARELLI
MD

Nicole C. Panarelli, MD received her undergraduate degree from Georgetown University and graduated from New York Medical College. She completed her residency in anatomic pathology and fellowship in gastrointestinal and liver pathology at Weill Cornell Medicine. She is an anatomic pathologist and Associate Professor of Pathology at Albert Einstein College of Medicine. She has lectured in multiple regional and national courses on the subject gastrointestinal pathology. Her research and clinical interests are in the pathogenesis and diagnosis of gastrointestinal inflammatory and neoplastic disorders. Dr. Panarelli has authored over 20 peer-reviewed publications and numerous books and book chapters on benign and malignant gastrointestinal diseases. She currently services on the Editorial Board of Gastrointestinal Pathology Section of Archives of Pathology and Laboratory Medicine. Dr. Panarelli is also a member of the executive committee and the secretary and treasurer of the Rodger C. Haggitt Gastrointestinal Pathology Society.

MING ZHOU
MD, PhD

Dr. Ming Zhou is the Pathologist-in-Chief and Chair of the Tufts Medical Center Department of Pathology, and Professor and Chair of the Department of Anatomic and Clinical Pathology, Tufts University School of Medicine in Boston, MA. He graduated summa cum laude from Fudan University Medical School in Shanghai, China. He completed his pathology residency training at the University of Michigan and a fellowship in the Urological and Kidney Diseases at the Johns Hopkins Hospital. He previously held faculty positions at Cleveland Clinic and New York University, and was the Dr. Charles T Ashworth Endowed Professor of Pathology and the Director of Anatomic Pathology in the Department of Pathology, the University of Texas Southwestern Medical Center in Dallas.

Dr. Zhou has devoted his clinical and research effort to diagnostic urological pathology, and discovery and validation of tumor markers for urological malignancy. He has authored over 200 peer-reviewed articles and numerous book chapters, and is the editor of 5 textbooks of urological and prostate pathology. He frequently lectures at national and international meetings on urological pathology. He was the co-course director of the prostate cancer long course at the 2018 USCAP annual meeting. He was a faculty of three USCAP short courses and four IM courses. He is currently a member of USCAP Board of Directors, and the President of Genitourinary Pathology Society (GUPS), an international organization for urological pathologists.

XIULI LIU
MD, PhD

Dr. Xiuli Liu is a pathologist. She is a Professor of Pathology in the Department of Pathology and Immunology at Washington University School of Medicine. She serves as Directors for GI and Liver Pathology and GI and liver Pathology fellowship program. She graduated from Beijing Medical University in China in 1990. She then obtained a PhD degree in Toxicology from University of Arkansas for Medical Sciences (UAMS) in Little Rock, Arkansas in 2002. She completed her AP and CP residency and GI pathology fellowship at University of Alabama in Birmingham (UAB), Alabama in 2007. She worked as a GI and liver pathologist at Cleveland Clinic for 8 years and at University of Florida for 5 years. Dr. Liu's clinical interest is in inflammatory diseases in the gastrointestinal tract, liver, and pancreas and their neoplastic complications, particularly their early diagnoses of Barrett esophagus and IBD-associated neoplasia. Dr. Liu's research interests are in the area of improving histologic diagnosis, identifying new markers, and validating new therapies and advanced technologies in Gastroenterology and Hepatology. She has published about 200 peer-reviewed articles, 200 meeting abstracts, about 30 book chapters, and co-edited 2 books. She has been the primary research mentor for more than 50 medical students, residents, fellows, junior faculty, and overseas scholars. Dr. Liu has won many awards, including the Innovator award at Cleveland Clinic for systems pathology model for predicting recurrence of colon cancer, Superior Accomplishment award from University of Florida College of Medicine, 2019 Exemplary Teacher from University of Florida College of Medicine, and Maria A. Leo-Lieber Scholarship from American Gastroenterology Association.
